| Team ID | : PNT2022TMID02158 |
| Project Name : | A novel method for handwritten digit recognition system. |

## PROJECT OBJECTIVES :

1. We are building a Flask Application which needs HTML pages stored in the templates folder and a python script app.py for server side scripting.
2. The model is built in the notebook Hand written recognition system.ipynb
3. We need the model which is saved and the saved model in this content is mnistCNN.h5
4. The static folder will contain js and css files.
5. The templates mainly used here are main.html and index6.html for showcasing the UI
